

Invitation Swiss Hepatitis Symposium 2020

Elimination by 2030

10 years to go

Monday, 30 November, 1.30 pm to 6 pm
University of Zurich

Chair: Catherine Boss, Reporter Research Desk Tamedia

The Importance of Data and Politics

Covid-19 has the world still tight in its grip. The pandemic acts like a magnifying glass, showing us what the challenges in public health are. However, we can also learn from it in order to eliminate viral hepatitis.

It has become abundantly clear in recent months that scientists have been struggling to get their voices heard during the coronavirus pandemic. Health authorities and politicians in turn were not always successful when it came to evidence-based decision-making.

At the same time, the importance of good, up-to-date surveillance of the epidemiological situation has become clear. The same applies to hepatitis B and C: we lack data to measure our progress in the fight against these infectious diseases.

We will be reflecting on how we can improve the data situation in Switzerland and will attempt to close some of the gaps. Moreover, we will discuss what policy makers need to make the right public health decisions.

We look forward to an exciting and inspiring afternoon.

Philip Bruggmann
Swiss Hepatitis

Ursula Zybach
The Swiss Society for Public Health

Programme

Part I Is It All About Data?

Elimination of HBV and HCV Milestones 2020	Philip Bruggmann, Swiss Hepatitis
The Data Manifest	Swiss Society for Public Health
Viral Hepatitis and Data	
The Swiss surveillance system and the challenges of digitalisation	BAG/FOPH
HCV mortality: data from a university hospital	Frédérique Lachmann, University of Zurich
Viral hepatitis and liver transplantation: a data analysis	Simone Temperli, Swisstransplant
Data Is Not Enough: We Need Public Health Surveillance	Arnaud Chiolero, University of Fribourg
Challenges in the Elimination of Hepatitis B	Francesco Negro, Geneva University Hospitals

Part II The Role of Politics

The Hepatitis C Policy: an analysis of the agenda-setting in Switzerland	Julia Kind, Arud Centre for Addiction Medicine, ZH
Elimination: From expert discussion to political action	Marcel Tanner, President EKSI

Panel

How can we build bridges between science and politics?

All talks are in English. Contributions in German or French are welcome and will be translated ad hoc. The conference will be streamed and can also be viewed online. For your safety, the event will follow the Covid-19 protection guidelines of the University of Zurich.

Login and Registration

You can register for this event [online](#) or by sending an email to info@hepatitis-schweiz.ch and indicate whether you will participate on site or online. The number of participants is limited. Only registered persons have access. **Please register before 20 November 2020.** The event is free of charge.

Venue

University of Zurich, Aula RAA-G 01, Rämistrasse 59, 8006 Zurich

Directions

We recommend public transport: If you arrive by train at Zurich main station (www.sbb.ch/en), change to bus No. 31 from Bahnhofplatz/HB to Kunsthaus and walk to the University of Zurich at Rämistrasse 59. Or you can walk all the way from Zurich main station (approx. 16 minutes).
